DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 1, 2005 has been entered.

Response to Amendment

The rejections described in the paper mailed on March 3, 2005 have been withdrawn in view of the amendment filed on July 5, 2005. As shown in the declaration filed on July 5, 2005, the Noda reference does not disclose or suggest contact times within the claimed range.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-11, 20-22, 28, 29, 32-34, 38, 41, 42, 45, 47, 49, 50, 51, and 53-58 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in

Art Unit: 1764

such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The limitation in the claims that the contact time is less than 0.1 seconds is not contained in the specification as filed. The specification appears to provide support for contact times of 5 to 100 msec but does not appear to provide support for any contact time within the range of less than 0.1 second.

Allowable Subject Matter

Claims 12-18, 23-25, 30, 31, 35-37, 39, 40, 48, and 52 are allowed.

Claims 19, 26, 27, 43, 44, and 46 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: The prior art of record does not disclose or suggest a method of steam reforming that utilizes a catalyst having the characteristics as in claims 12 and 16.
